Alexandria, VA 22314

Sir:

Supplementing the applicants' disclosure statement filed on January 27, 2006, attached is a further PTO-1449 listing several additional references cited in the applicants' disclosure. Also listed is a further publication known to the applicants, i.e. Remedium, 1992, 4:49. This reference is not cited in the applicants' specification but it is the basis for the statement that Laminaran is known to possess anticancer activity at page 3, lines 21-22 of applicants' specification.

A copy of the Zvyagintseva et al. reference, which is noted in applicants' earlier-filed disclosure submission, is also attached.

Copies of all the references listed in the attached PTO-1449, with translation of relevant part of the "Remedium" citation, are attached.

The Examiner is requested to consider the attachments, along with the earlier-filed disclosure submission, in the examination of this application.

The return of an initialed copy of the attached PTO-1449 along with copy of the earlier-filed PTO-1449, reflecting the Examiner's consideration of the same, is requested.

Respectfully submitted,

MORGAN LEWIS & BOCKIUS LLP
